Dear Valerie,

I am writing in response to your undated letter in which you claimed to have "concerns." It appears, based on these "concerns" you feel you have the right to enter my property on Wednesday, October 10, 2018 at 4:15p.m. Be advised I will not allow you to enter on my property. Please send me any and all evidence you have which caused the "concerns" that led to my receiving this letter.

I have previously communicated with Chief David White of the Westhampton Police Department regarding Tom Quinlin and his girlfriend harassing me. It appears your letter is motivated by the same intent to harass, annoy and strike fear. Your apparent willful infliction of pain on a cancer survivor is repugnant and threatening.

If you believe you have a legal right to enter my property, please have the police department deliver a warrant.

Stop harassing me.

Sincerely,

Timothy Fondakowski
